

Lisbon - Portugal, 1<sup>st</sup> November 2016

**Even Paradise becomes more desirable with AHT!**  
**Quinta Da Marinha Resort – Portugal**

**Cascais** is beach town in the Lisbon Region of Portugal, located at the end of the mouth of the River Tagus as it meets the ocean, with spectacular beaches to be found on its Atlantic shorelines. The combination of maritime leisurely charm, strategic position and location close to Lisbon made it a favourite residence of the Portuguese Royal Family and many other noble and powerful families in Portugal.

Described as **Paradise-on-Earth**, the **Quinta Da Marinha Resort** is located in the most idyllic part of Cascais and continues this tradition today by offering arguably the best and most chic and exclusive housing complex in modern Portugal. Quinta Da Marinha maintains this vocation of space and people, presenting an astonishing diversity of environments and landscapes, which make it a real paradise to live an enjoyable and productive life.

The Soluft Team under the leadership of Mr Sergio Seco has managed to enter this most exclusive residential project and to already have made their first installation of the AHT Amorphous Metal Ribbon heating mats.

We would like to thank them for their hard work as well as offer our congratulations for this very important breakthrough, which proves that AHT technology is second to none, irrespective of economic environment. At the end a very happy and proud Sergio commented "When people want the best heating in the world AHT is their number one choice!"
