

## **Le Meridien Excelsior Gallia Hotel - Milan**

Nicosia, 19<sup>th</sup> July 2013

We are very proud to announce that the installation of the AHT Electric Underfloor Heating System at the Le Meridien Excelsior Gallia Hotel in Milan, Italy has been completed, tested successfully, approved and handed over to the Project Manager.

Set in the heart of Milan's renowned Piazza Duca D'Aosta, Le Meridien Gallia is one of the most prestigious hotels in Italy. Opened in 1932, Le Meridien Gallia features an art nouveau facade and remains one of the most celebrated and luxurious hotels in the whole of Europe, having hosted thousands of celebrities from all four corners of the world in its long history.

The whole project was managed very effectively by Mr Edoardo Marabese – Managing Director of AHT Italia srl, who we would like to congratulate for this great success. Edoardo commented “If we can do it in a famous hotel such as the Gallia why not everywhere else in the world!”
