## New AHT Distributor in **Montenegro, Kosovo and FYROM**

Via Nassa 3A, 6900 Lugano, Switzerland  
T. +41 91 9101724 - F. +41 91 9101719

**We are very pleased to announce that RCON-AL has been appointed as the authorised AHT distributors in Montenegro, Kosovo and FYROM.**

These three young south Balkan countries with a combined population of about 4.5 million people have emerging market economies growing at high rates and all aspiring to join the European Union in the near future. The largest of these three countries is FYROM and is ranked as the fourth "best reformatory state" out of 178 countries ranked by the World Bank in 2009. It has undergone considerable economic reform since independence and it has developed an open economy with trade accounting for more than 90% of GDP in recent years. Since 1996, it has witnessed steady, though slow, economic growth with GDP growing by 3.1% in 2005. This figure was projected to rise to an average of 5.2% in the 2006–2010 period.

In these three growing economies RCON-AL a new specialized and forward thinking Construction and Technical Company has its own national distribution networks and offers progressive and high-tech Architectural and Buildings solutions and services to all types of professionals such as Architects, Civil Engineers, Developers as well as to private consumers.

**We would like to wish Mr Panayiotis Rumis and his RCON-AL team great success in Montenegro, Kosovo and FYROM. Bearing in mind that "The Most Successful People Take Small, Smart Steps Toward Their Goals" it's clear that Panagiotis and RCON-AL are well on their way to success!**
