## **New AHT Distributor in Tunisia**

**We are very pleased to announce that HBA Services Ltd has been appointed as the authorised AHT distributor in Tunisia.**

Tunisia with a population of more than 11 million people is an export-oriented country in the process of liberalizing and privatizing an economy that averaging 5% GDP growth since the early 1990s. The European Union remains Tunisia's first trading partner, currently accounting for 72.5% of Tunisian imports and 75% of Tunisian exports. Tunisia is one of the European Union's most established trading partners in the Mediterranean region and ranks as the EU's 30th largest trading partner. Tunisia is the northernmost country in Africa and with its Atlas Mountains covered by snow for most of the winter months it experiences cold and sharp winters. Therefore there is a serious need by the Tunisian people to heat their homes in an efficient and economic way just like people in Europe.

In this promising environment **HBA Services Ltd**, a long established and experienced heating company with a strong national network, is expanding its activities with the addition of the **AHT Amorphous Metal Ribbon Indoor and Outdoor heating products**.

**We would like to welcome Mr Guetat Anas and his HBA Services team to our ever growing AHT International Family and wish them great success for the future!**
